**THE EXPERTS IN THE  
MOVING INDUSTRY**

### BEFORE YOU MOVE

#### Electrical Appliances:

HOMEPACK packing staff is not permitted to interfere with service connections. We can assist arrangements for the professional disconnection of cookers, fires, washing machines, light fittings and any other items wired directly to gas or electrical mains.

#### Fixed Items:

Arrangements will need to be made to detach any fixed items such as pelmets, towel rails or built furniture. Fitted carpets should be professionally loosened before our crew arrives and flat-pack furniture should be dismantled. Our handyman will be able to handle the above.

#### Crating:

For fragile items, HOMEPACK offers crating services that ensure the protection of high valued, sensitive items. Measurements are taken prior to the packing (usually during the survey) so that the crates are brought on the day of the packing. All the wood used is heat treated and of the highest quality.

#### Insurance:

If not covered by your company, HOMEPACK can offer all risk door to door insurance coverage. A detailed inventory is required in order to issue the policy and can be sent in advance for the client to complete. Please ask your sales representative regarding this form.

## On The Day Of The Move

### Have you:

- ✓ Walk through your home with the crew leader to give him an overview of what is to be done. Be sure that he is aware of any special needs or instructions. Remember to keep keys, passport etc. to one side.
- ✓ Call us should you have any questions during the packing which the crew leader cannot answer.
- ✓ Advise the crew leader of any items which you will require immediately at your destination so they can load them last(if appropriate).
- ✓ After packing is complete and before our crew has departed, walk through your home to ensure nothing has been missed.
- ✓ Ensure that you retain your own copy after checking and signing the Packing Inventory.
